

Certificate of Research/Creative Work Utilization in the Year 2021
Faculty of Liberal Arts, Rajamangala University of Technology

I (Mr /Mrs /Miss) Antonio A. Anjos
Position Assistant Director of the Family Federation for World Peace and Unification
Name of organization Family Federation for World Peace and Unification
Location 324-275 Misari-ro, Seorak-myeon, Gyeonggi-gun, Gyeonggi-do, Republic of Korea #12461
Contact number +1 (919) 998-9899

Certify that Research/Creative Work: A STUDY OF LEARNING ACHIEVEMENT AND SATISFACTION OF
RMUTL STUDENTS USING THE TOEIC WORKSHEETS

Researcher/Creator's Name-Surname (Academic Position): Asst.Prof.Dr. Tawatchai Chaisiri and others
Affiliation: Faculty of Liberal Arts, Rajamangala University of Technology

Utilization Details

☐ Academic utilization

Outcome:

Since Month B.E.

Until Month B.E.

☒ Public utilization I work as Assistant Director for my organization, *Family Federation for World Peace and Unification*, which has the headquarter in Korea. I travel back and forth from time to time between the US, Brazil, South Korea, and Thailand to do missions helping people solve their family or social problems, including teaching English to those who wish to learn the language for communication. My colleagues and I used the concept of worksheets as a means of instruction that can help us teach English more efficiently and fruitfully. Dr. Chaisiri's work is worth implementing, though we are not teaching English for the standardized test.

Outcome: The results of the implementation were promising in that I could see my students paid much more attention to the lessons. They used worksheets as learning materials that provide them with informative information, and they could refer to them later after the class. One of my students are now in France, living with her husband there, using English for traveling abroad. Thus, having the learning objective and providing enough resources for students are crucial for practical learning outcomes.

Since 2 Month November B.E. 2563

Until 20 Month February B.E. 2564

☐ Policy utilization at a national level

Outcome:

Since Month B.E.

Until Month B.E.

☐ Policy utilization at a commercial level

Outcome:

Since Month B.E.

Until Month B.E.

☐ Indirect utilization of creative work

Outcome:

Since Month B.E.

Until Month B.E.

Certify that Research/Creative Work: Perceptions, knowledge and self-defense behaviors regarding

COVID-19 among employees at Rajamangala University of Technology Thanyaburi, Thailand

Researcher/Creator's Name-Surname (Academic Position): Assistant Professor Dr. Issara Siramaneerat

Affiliation: Faculty of Liberal Arts, Rajamangala University of Technology

Utilization Details / Policy utilization at a national level

The result of this research was employed to enrich learning material and discussion to related current situation
The of prevention and control Behaviors among employees at RMUTT , in order to use the information to support
universities and related agencies in developing COVID – 19

Outcome : People will seek ways to follow preventive and rehabilitation recommendations as long as prophylactic
practices are more positive than the occurrence of the disease. By following prevention instructions, the sense of
fear of threat of disease occurrence can be overcome through knowledge of how to prevent the disease from
affecting them.

Certify that Research/Creative Work: Type of Mass Media Exposure Effects on ZIKA-Related Knowledge and Behavior among Pregnant Women in Thailand

Researcher/Creator's Name-Surname (Academic Position): Assistant Professor Dr. Issara Siramaneerat

Affiliation: Faculty of Liberal Arts, Rajamangala University of Technology

Utilization Details / Academic utilization I use the article entitle Type of Mass Media Exposure Effects on ZIKA-Related Knowledge and Behavior among Pregnant Women in Thailand to teach the study how to provide additional ZIKA information via electronic media, print media and personal media.

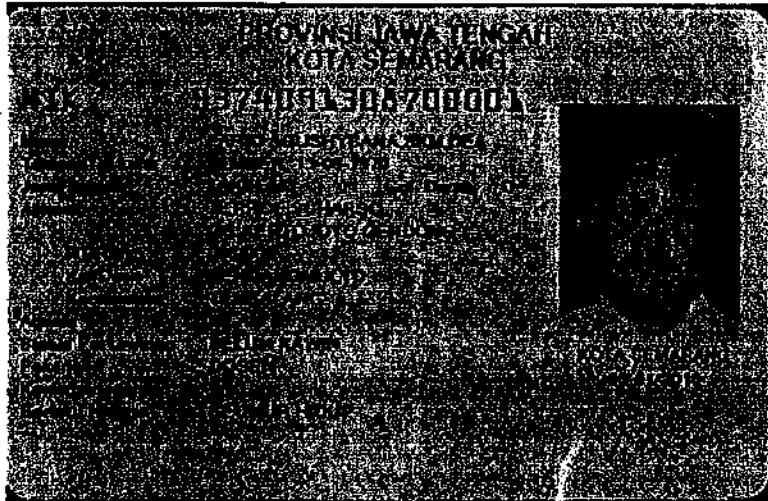

Outcome: Understanding the impact of mass media exposure may help contribute to improving mass media campaigns for population-based approaches to address the spread of Zika. r, it is important to keep in mind that the obstacles to accessing information over the internet are impacted by social and demographic variables such as age, ethnicity, income, education and occupation, information search skills and reliability of health information.

Certify that Research/Creative Work Impact of specialized physical training programs on physical fitness in athletes

Researcher/Creator's Name-Surname (Academic Position): Assistant Professor Chalit Chaowilai

Affiliation:Faculty of Liberal Arts, Rajamangala University of Technology.....

Utilization Details / Academic utilizationI use quasi-experimental research and use a training program as an example for students who are working on research using the experimental program.

Outcome: The student was understandable a type of research design that attempts to establish a cause-and-effect relationship. The main difference with a true experiment is that the groups are not randomly assigned. The methodological principles that most often result in alternative explanations in quasi-experimental studies include the following: (1) difficulty in controlling for important confounding variables, (2) results that are explained by the statistical principle of regression to the mean, and (3) maturation effects.

Researcher/Creator's Name-Surname (Academic Position): Assistant Professor Anong Rukwong

Affiliation: Faculty of Liberal Arts, Rajamangala University of Technology

Utilization Details / Academic utilization The article entitle " A construction of futsal skill tests
for undergraduate students Rajamangala University of Technology Thanyaburi, Thailand" was used
as the example for experimental design research for teaching student in the methodology research
subject

Outcome: The student in class was understandable in the This test can be used for research purposes and the selection of players. If there is a tiered competition in futsal coaching achievement, then this test can be used as a tool to determine the skill level of players at the level futsal competition everywhere. So the competition can be run more competitive, because every player has a skill impartial.
